

Two Ways to get PULSE

As the exclusive provider of PULSE, Application Experts is dedicated to getting as many organizations as possible up and running on PULSE. To that end, we offer two ways to get started. For organizations with a tighter budget or more technical know-how, we offer our free self-installation path. And for organizations making more extensive use of the system, we offer paid installation and support services.

Whether you choose self-implementation or paid implementation, we are here to help make you successful with PULSE. Not sure which type of installation is best for you? Read below.

Self-Implementation

Available resources include:

- The PULSE Wiki
- PULSE Forum and Community (coming soon)

We are committed to our free users and will continue to build resources to facilitate self-implementations of PULSE.

Recommended for :

- Users with some technical competence and familiarity of Salesforce.com
- Users with time and energy to dedicate to implementing PULSE

Price: FREE

PULSE Implementation and Support Package

Includes full installation and configuration to mirror your organization's business processes

Includes loading your existing data into the database

Live help desk support available via phone or email

Recommended for :

- Users with impending deadlines
- Organizations that require technical support
- Organizations with limited in-house resources to dedicate to implementing PULSE
